

## GUIDEBOOK

### Product Type:

Taxi & Runway Textures for Microsoft Flight Simulator 2004.

### Product Information:

The image files contained within the ZIP file are upgraded Taxi and/or Runway textures for Microsoft Flight Simulator 2004. These textures will upgrade and replace the original textures supplied with the game. The Pixel Dimensions (Resolution) of these textures are 1024 px x 768 px and thus provide very sharp image quality. The Developing technique is so powerful that the size of these textures has not increased too much so the files provide faster frame rate.

### Compatibility:

Textures provided are tested only on Fs2004 and may not work with any previous versions of the game. Wild guess is that only runway textures will work correctly on FS2002.

### Installation:

*Suggestion:* As informed earlier that these textures will upgrade and replace the original textures supplied with the game. It is strongly recommended that you make a backup copy of your Original/Default texture files.

After you unzipped the downloaded zip file, copy the texture files to the "**TEXTURES**" folder of your FS2004.

### Condition of use:

1. The textures contained within this archive are designed and developed for your use as "freeware". No fee or charge is made for its use.
2. No third party is allowed to charge any thing and/or in any form for the use or distribution of this software under any conditions, without the express permission of the DESIGNER.
3. The original DESIGNER retains full ownership of these files and reserves all rights and privileges under U.S. and international copyright laws. This archive, with out any change of content may be redistributed or uploaded to any online site or service.
4. No Liability for Consequential Damages. To the maximum extent permitted by applicable law, in no event shall Nazim Ali Patel be liable for any special, incidental, indirect, or consequential damages whatsoever arising out of the use of or inability to use the software, even if Nazim Ali Patel has been advised of the possibility of such damages.
